PRESENTATION AT OOKALA.

Mr. and Mrs. J. N. Wright are Given a Reception and Tokens of Respect.

On the evening of Sept. 25th, the friends of Mr. and Mrs. J. N. Wright of Ookala, Hawaii, tendered them a reception on the occasion of their departure from Ookala to reside in Honolulu. Mr. Wright was presented with a massive gold-headed cane made of native woods. more than usually interesting, and dwells by his employees and friends, as a mark of respect and gratitude; while Mrs. Wright received as a farewell token a pair of beautifully carved plaques, on the dark walnut background of which were represented in exquisite carving bunches of the fruits of Hawaii. Following the presentation, representatives of the various nations present contributed to the evenings enjoyment by singing the national hymns of their country. A tempting repast was partaken of at eleven o'clock, after which dancing was indulged in till the early morning hours, when Mr. and Mrs. Wright bade farewell to all present. Their friends departed conscious of having spent a pleasant evening, and wishing Mr. and Mrs. Wright a full cup of happiness and proslei, Kanai, to land Col. C. P. Iaukea who perity in the future.

Prof. Souvlet's Recital.

Professor Souvlet gave a piano recital at the Y. M. C. A. hall on Saturday evening to twenty-six of an audience, all of whom were as prominent as surrounding empty chairs could make them.

The Professor's playing on the piano showed that he was a perfect master of that instrument, and every number received all the applause that twenty-six persons could bestow. Miss F. J. Nolte contributed two songs which were accompanied on the piano by Bandmaster

Berger, and were well rendered. It was disappointing to find such a meagre attendance, in view of the fact that there is such a very large proportion of musicians amongst the population; but it is possible that this same present, and its sounds strike the ear at all times and in all places. Reckoning professionals and well-known amateurs, there is probably a much larger proportion of musicians in Honolulu than in any city of its size in the world where

English is the business language. The programme of the recital last Satarday evening consisted of twelve selections; all of which, with the exception of two songs by Miss Nolte, were played on the piano by Professor Souvlet, whose merit as a pianist was much appreciated by those present. That the takes" did not meet one fourth of the expenses, is certainly no fault of the performance; and we trust that other musical ventures by this talented gentleman may meet with more remunerative appreciation.

Annual Meeting.

The annual meeting of the Honolulu Library and Reading Room Association took place in the rooms on Friday evening as announced. There was a full attendance of members; and after the routine business had been gone over, Mr. Justice Dole made offer, on behalf of Hon. C. R. Bishop, that the latter gentleman would present to the Association \$1,000 per year for the next five years, making the gift \$5,000 in all, for the purchase of new books; provided the Association would pay up its present indebtedness of \$1,600. This offer was promptly accepted, and a committee was appointed to raise the amount necessary to pay off the indebt-edness. The officers of the Association were also instructed to send a letter of thanks, on behalf of the Association, to Mr. Bishop for his generous offer, and to state that the same had been gratefully accepted.

The officers and trustees elected for the ensuing year are as follows: Officers -President, A. J. Cartwright; Vice-President, M. M. Scott; Secretary, H. A. Parmelee; Treasurer, A. L. Smith. Mr. and Mrs. Taro Ando Receive an

Ovation at Queem Emma Hall. On Thursday evening a farewell enterment was given to Mr. Taro Ando, His Imperial Japanese Majesty's Consul-General, and Mrs. Ando, at Queen Emma Hall, previous to their leaving for Japan on account of the ill health of Mrs. Ando.

The reception room was beautifully decorated with Japanese imitation vines and Hawaiian flowers and foliage. The attendance of Mr. and Mrs. Ando's friends was numerous, and among them were members of the Japanese Young Men's Christian Association.

Dr. Hyde conducted the proceedings and stated the object which had brought the assemblage together, which was to give a parting manifestation of respect to Mr. and Mrs. Ando for the part they had taken in Christian work among the Japanese domiciled on these Islands. In concluding his remarks the speaker presented to Mr. Ando the following letter of appreciation: TARO ANDO, Esq., H. I. J. M. 's Consul-

General. DEAR SIR :- The undersigned residents of Honolulu desire to express in some fitting way, their high appreciation of the services you have rendered as the first diplomatic representative sent to this our kingdom from the great empire of Japan. We have come greatly to admire the uniform courtesy you have shown in all your intercourse with our citizens, both in social and official relations. We have watched with eager and grateful interest your self-sacrificing labors for the best interests of your countrymen, brought now in such numbers to our shores. We have learned lessons ourselves of the power that high-toned personal character must have always and everywhere, as we have seen what good you have accomplished in your endeavors to secure and maintain a good name for the Japanese people in this central archipelago of the North Pacific. Most truly do we hope that your efforts will have a good and beneficial influence in the future development of the political and commercial relations of the Pacific Islands and coasts with other regions and nationalities. We regret that it now seems needful for you, for a time, to seek elsewhere for your family, restoration to health and vigor; but we hope that your absence will be as brief as is consistent with the attainment of your desires for this object, and we pray for your continued health and speedy return to Hawaii Nei. Nor will it be out of place, in this connection, gratefully to recognize the influence for good of your accomplished and devoted lady. We trust that this testimonial of our respect and esteem may ever keep in pleasant memory these months and years you have spent in our community, though neither your Government nor yourself may need such written memor ial of the high place you have received

for yourself and for your nation in the hearts of our people. The above letter was signed by A. F. Judd, Edward Preston, Richd. F. Bickerton, L. McCully, S. B. Dole, Jona. Austin, C. W. Ashford, S. M. Damon, L. A. Thurston, A. S. Cleghorn, Chas. R. Bishop, H. W. Mist, John H. Paty, F. A. Schaefer, P. C. Jones, John Thos. Waterhouse, Sr., J. T. Waterhouse, Jr., Henry Waterhouse, Wm. G. Irwin, W. Fuller, E. G. Beckwith, H. W. Peck, Goo Kim, C. M. Hyde, W. D. Wester-velt, W. C. Merritt, F. W. Damon.

Mr. Ando in reply expressed agreeable surprise at hearing so many flattering words, and appreciated the honor and pleasure at receiving the testimonial. He also expressed a hope that the good feeling between Hawaii and Japan would continue.

Mr. Ando then addressed his countrymen present in the Japanese language, and short addresses were made by Mr. Justice McCully, Hon. Henry Water-house, Mr. F. W. Damon and others among whom were several Japanese. Ice cream and cakes ware then partaken of in an adjoining room, and the aggreeable proceedings thus ended.

Arrival of the Yamashiro Maru. This Japanese immigrant steamer left Yokohama on September 18th at noon with 1,000 steerage passengers, and 21 in the saloon and second cabin. The vessel is commanded by Captain C. passengers. Easterly winds and high head seas were experienced the entire distance from port to port. There was no sickness of any kind on the passage; and the vessel arrived in Honolulu at 8 a. m. Tuesday after a quick run of

twelve days and a few hours.

The reception on board the Japanese war-ship Hi-yei Wednesday was a very pleasant and successful event. All the foreign diplomats and consuls resident represented, and a large assemblage of Honolulu's society people also did honor to the occasion. The flag decorations were superb, and a plot of crysanthe-mums on deck added much to the beauty of the scene. The great courtesy always shown by Japanese gentlemen was profuse on this occasion, and added much to the pleasure of the visitors.

A Speed of 91-2 Knots Developed-The Machinery Wrought With Great Satisfaction-The Entire Trip a Suc-

This storm-tossed and historic warvessel, after undergoing needed repairs on the Marine Railway, has been lying at the P. M. C.'s wharf for the past few days taking on board her armament, supplies, etc., and on Friday, as announced, she made a trial trip to ascertain the working of her machinery and her sailing qualities.

Admiral Kimberly arrived on the wharf about 9:30 a. m. and immediately proceeded on board the Nipsic. The vessel's head was then swung seaward by the tug Eleu, and the gallant vessel steamed out of the channel in grand style under a two-third head of steam. She rounded the bell-buoy with undiminished speed which upon calculation was averaged at 916 knots. The propeller made 60 revolutions with 54 pounds of steam. The machinery was not in any way heated, nor was any strain observable that might have been caused by being on the "ways." The boilers were found to be in good condition and in place, and the pipes were without leak or damage. Diamond Head was passed and Coco Head "opened" when the vessel was put about, and she came back to port without a hitch during the whole trip. On entering the harbor she took her position in naval row.

Rapid Bridge Building

The Cascade bridge between Soda Springs and the Summit on the main line of the Central Pacific Railroad has been entirely replaced after being burned down on the 12th inst. The construction of the new bridge was a rapid piece of work. As soon as the news of the disaster was received here forty-nine carloads of timber and other material and 500 workmen were sent to the scene on special trains from Sacramento. The work was begun on Friday and finished last Wednesday. It is understood that the burned snow-sheds will not be rebuilt, as reliance is placed on the powerful plows of the mountain division to keep the tracks clear during the winter.-[S. F. Alta.
